

CMS is continuing to perform focused infection control surveys.

To assist you in preparing for a focused visit, consider having the following items available:

- Copy of policies and procedures including:
 - Infection prevention and control
 - Surveillance plan
 - Emergency preparedness
 - Emergency staffing strategies
- Access to your electronic medical records (surveyor access only)
- Process for notifying residents, families, representatives of suspected or confirmed COVID-19

Policies

- List of key personnel, location, phone numbers, titles
- List contract staff (e.g. rehab services)
- Work schedules for specified times/dates for nursing and nurse aides
- Name of person responsible for infection control and prevention

Staff

- Alphabetical list of residents with room numbers
- List of residents who are confirmed or suspected cases of COVID-19

Residents

- Updated floor plan (Identify COVID designated units if applicable)
- Census numbers by unit
